INTER-KOREAN AFFAIRS

JAPANESE TEACHERS GROUP DEMANDS U.S. WITHDRAWAL

SK020459 Pyongyang KCNA in English 0350 GMT 2 Aug 83

[Text] Pyongyang, 2 Aug (KCNA)--We call for the withdrawal of the U.S. troops from South Korea, oppose the U.S. imperialists' interference in the internal affairs of Korea and scathingly denounce the South Korean authorities' policy of dependence on foreign forces.

This was stressed in a statement issued on 31 July at Panmunjom by the delegation of the Society of Japanese Teachers for the Study of the Chuche Idea headed by Choei Aita, representative member of the Fukushima Prefectural Teachers Society for the Study of the Chuche Idea and chairman of the Executive Committee of the Fukushima Prefectural Teachers Union, in support of the independent and peaceful reunification of Korea.

The statement expressed full support to the three principles of national reunification and the proposal for founding the Democratic Confederal Republic of Koryo put forward by the great leader Comrade Kim Il-song.

It ascribed the continued tragic national split of Korea to the U.S. imperialists' occupation of South Korea, the "two Koreas" plot of the U.S. imperialists and the South Korean puppet clique and the involvement of the Japanese reactionary government in this plot.

The statement said:

We can never tolerate the Reagan Administration pursuing a policy of strength, the Japanese reactionary government and the Chon Tu-hwan military fascist clique holding large-scale joint military exercises to trump up a trilateral military alliance and perpetrating military provocations against the northern half of Korea to create the danger of war.

The Nakasone cabinet said it would make Japan an "unsinkable aircraft carrier," is increasing economic "aid" to South Korea in collusion with U.S. imperialism and trying to take the road of war, involved in the "two Koreas" plot.

We will launch a vigorous struggle against this.

The moves to hold the 70th Inter-Parliamentary Conference in Seoul in the coming October are a hostile act against the Korean people fighting for national reunification.

We will never tolerate these moves but will resolutely oppose them.

We will strengthen unity between the Korean and Japanese peoples and wage a vigorous solidarity movement, firmly joining hands with broad segments of Japanese people supporting the independent and peaceful reunification of Korea in order to materialize the proposal for founding the DCRK.

OVERSEAS KOREANS CALL FOR UNITED FRONT FORMATION

SK010517 Pyongyang KCNA in English 0423 GMT 1 Aug 83

[Text] Pyongyang, 1 Aug (KCNA)--So Chong-kyun made a report titled "Our Goal and Task at Present" at the North American Meeting of Overseas Koreans on National Problems held in New York some time ago.

A new strategy and tactics has been raised among the South Korean students these days, that is, to review and criticize their movement for democracy, set the goal of the immediate struggle in national independence, national unification and genuine democracy and fight against the fascist "regime" and foreign forces, its patrons, and for the formation of an all-embracing democratic united front, he said.

The reporter reviewed the movement for democracy since the 16 May "military coup d'etat."

He continued:

The weakest point in the movement till the 1970's was that its participants could not fully and clearly realize what is the obstacle to the solution of the national problem and who is behind it. It has been made clear in the 1980's. A student activist said, breathing his last in the Kwangju blood-bath: "We have now realized that the United States is behind Chon Tu-hwan."

An agreement on South Korea-Japan "common destiny" and South Korea-U.S. "common destiny" is in vogue at a time when the stepping up of formation of the U.S.-Japan-South Korea tripartite military alliance had increased shipment of nuclear weapons into South Korea have become an open secret.

We must realize without the slightest doubt that the United States is supporting the fascist "regime" in order to secure a pro-American flunkeyist "government," while seeking for a chance to annex the North and the South by force of arms and trying, if it is impossible, to fix the North-South division, place South Korea under the U.S. military domination and keep the U.S. troops in South Korea indefinitely.

It is a fundamental principle of democracy that power rests with people, but our "democracy" since the 15 August 1945 liberation has been a "democracy"

of power resting with America. In this sense, we must re-examine the expression of "restoration of democracy."

Referring to genuine democracy, national independence and unification questions, the reporter dwelt on the problem of formation of an all-embracing democratic united front.

The formation of this front reflects the actual conditions of South Korea, the objective demand and the desire of the people; it is a most correct immediate action program at the present stage when the military fascist dictatorship holds sway.

All forces of different circles aspiring after democracy, national independence and unification should form a united front in firm unity.

FOREIGN MEDIA SUPPORT 'ANTI-U.S. JOINT STRUGGLE' MONTH

TASS Reports Solidarity Month Closing

SK291023 Pyongyang KCNA in English 1009 GMT 29 Jul 83

[Text] Pyongyang, 29 Jul (KCNA)—The month of solidarity with the Korean people's struggle for the independent and peaceful reunification of the country closed in the Soviet Union, according to a TASS report on 27 July.

Working people's meetings, soirees, mass meetings and film shows and photo exhibitions showing the successes of the Korean people in socialist construction were held in Moscow, the Ukraine, Kazakhstan, Tajikistan, Khabarovsk and maritime frontier regions, Leningrad Province and Amur Province.

Speakers at these functions said that the Soviet people have always stood and are standing on the side of the Korean people in the struggle for forcing the U.S. troops to withdraw from South Korea and reunifying the country on peaceful and democratic principles.

They scathingly denounced the crimes of the South Korean puppet clique in aggravating the situation on the Korean Peninsula and called for an immediate end to the imperialist interference in the internal affairs of Korea.

The Standing Committee of the Union of Soviet Societies of Friendship and Cultural Relations With Foreign Countries and the Central Committee of the Soviet-Korean Friendship Society arranged a film show at the Friendship House in Moscow on 26 July in connection with the closing of the month of anti-U.S. joint struggle.

Foreign Media Express Korean Solidarity

SK291535 Pyongyang KCNA in English 1511 GMT 29 Jul 83

[Text] Pyongyang, 29 Jul (KCNA)—Publications of various countries carried articles expressing solidarity with the Korean people in the just struggle for national reunification on the occasion of the month of anti-U.S. joint struggle and the 30th anniversary of the victory in the Fatherland Liberation War.

The Soviet weekly magazine NEW TIMES said:

A tense situation still prevails in Korea though 30 years have passed since the signing of the armistice agreement. the U.S. troops' occupation of South Korea is a permanent threat to peace on the peninsula.

The magazine condemned a projected U.S.-Japan-South Korea tripartite military alliance.

The Soviet paper IZVESTIYA carried an article introducing Pyongyang which has been built on the debris left by the three-year war.

The Polish papers TRYBUNA LUDU and RZECZPOSPOLITA denounced the new war provocation manoeuvres of the U.S. imperialists and the South Korean puppet clique and demanded the withdrawal of the U.S. forces from South Korea.

The Tanzanian paper UHURU noted that the Democratic People's Republic of Korea has always taken active steps on its own initiative for the realisation of the country's reunification. Due to the machinations of the South Korean authorities, however, it said, the proposals and policies for reunification have not been realized.

The Swedish paper GNISTAN devoted one whole page to articles and photographs exposing the South Korean puppet clique.

The U.S. imperialist mobilised troops of 15 satellite countries under the UN flag only to sustain a miserable defeat in the Korean War and sign the armistice agreement, the paper said, and continued:

The Korean armistice agreement should be replaced with a peace agreement and Korea reunified at any cost.

It pointed out that the proposal for founding the Democratic Confederal Republic of Koryo put forward by President Kim Il-song is a fair and aboveboard proposal to reunify the country independently and peacefully.

The Swedish paper NORRSKENSFLAMMAN carried the gist of a talk issued by Bengt Tuikanen, chief of the Stockholm Group for the Study of the Chuche Idea of Comrade Kim Il-song.

Noting that the U.S. imperialists' occupation of South Korea is entirely illegal and is an interference in the internal affairs of Korea, the paper said South Korea is a complete colony of the U.S. imperialists, not a sovereign state.

The Guyanese paper NEW NATION carried an article entitled "Three Principles of Reunification" and the Congolese paper ETUMBA introduced colorful functions organized in the country on the occasion of the month of anti-U.S. joint struggle.

Japanese Activists Demand Troop Withdrawal

SK301524 Pyongyang KCNA in English 1512 GMT 30 Jul 83

[Text] Tokyo, 28 Jul (KNS-KCNA)—Activities demanding the immediate withdrawal of the U.S. troops from South Korea were widely organized in different parts of Japan in support of the reunification of Korea on the occasion of the month of anti-U.S. joint struggle.

A declaration adopted at a meeting of the people in Shinagawa Ward for Japan-Korea Friendship and Solidarity which was held in Tokyo strongly demanded the withdrawal of the U.S. forces and nuclear weapons from South Korea and a switchover of the Japanese policy towards Korea.

Meetings against nuclear war and a U.S.-Japan-South Korea military integration and for Korea's reunification were recently held in Miyagi and Akita Prefectures.

The sixth meeting of the Nagano Prefectural People's Council, Japan, for Supporting the Independent and Peaceful Reunification of Korea was held in Nagano City and a seminar on the subject "Korea and Japan" in Sendai City, Miyagi Prefecture.

A meeting for knowing Korea well held in Gunma Prefecture adopted a resolution supporting the struggle of the South Korean Democrats and the proposal for founding the Democratic Confederal Republic of Koryo.

A meeting for sending the 10th Group to the United Nations for the rescue of political prisoners in South Korea was held recently in Tokyo and people of Okinawa conducted on-the-street propaganda against the nuclear war preparations of the U.S. imperialists.

Kim Chong-il Receives Solidarity Letters

SK301045 Pyongyang KCNA in English 1016 GMT 30 Jul 83

[Text] Pyongyang, 30 Jul (KCNA)--The dear leader Comrade Kim Chong-il received letters from the opening meeting of a solidarity month in Harare, and a solidarity meeting in Mutare, Zimbabwe, on the occasion of the month of anti-U.S. joint struggle.

The letter from the opening meeting in Harare says:

Owing to the reckless war provocation manoeuvres of the U.S. imperialists and their stooges, a very strained situation reminiscent of the eve of a war has been created on the Korean Peninsula.

We hold that, for the removal of the danger of war in Korea, the U.S. imperialists must withdraw all their military equipment and personnel at once from South Korea and stop instigating the South Korean puppet clique to the provocation of a new war.

We demand that the U.S. imperialists accept the proposal of the Democratic People's Republic of Korea for replacing the armistice agreement with a peace agreement.

We hold that the reunification of Korea should be achieved in accordance with the proposal for founding the Democratic Confederal Republic of Koryo put forward by the great leader Comrade President Kim Il-song.

We are firmly convinced that the Korean people will certainly achieve national reunification, their greatest desire, under your wise guidance, dear leader.

The letters wholeheartedly wish the dear leader Comrade Kim Chong-il good health and a long life.

NODONG SINMUN's Monthly World Situation Review

SK016112 Pyongyang KCNA in English 0406 GMT 1 Aug 83

[Text] Pyongyang, 1 Aug (KCNA)--NODONG SINMUN 31 July carried a monthly review of the world situation under the caption "The World Stands on the Side of the Korean People." It says:

In the last one month the world public lifted up its voice of international solidarity as never before, opposing the criminal moves of the U.S. imperialists to provoke another war on the Korean Peninsula and their "two Koreas" plot and supporting the Korean people's cause of national reunification.

On the occasion of the month of anti-U.S. joint struggle (25 June-27 July), various solidarity activities supporting our people's cause of national reunification were widely organized on an unprecedented scale on all continents and in all regions of the world including Asia, Africa, Latin America and Europe, to bitterly denounce the new war provocation manoeuvres of the U.S. imperialists in Korea.

The socialist countries, non-aligned and developing countries including Tanzania, Guyana and the Congo, international organisations, social organisations, friendship organisations and prominent figures in political, public and press circles issued statements, talks and appeals and sent solidarity messages and letters to Korea almost every day. Photo exhibitions, round-table talks, seminars, lecture meetings, press conferences and film receptions and various other functions were briskly organized in many countries with the attendance of broad segments of people. Newspapers, news agencies, radios and publications of many countries were unsparing of space and time in reporting many articles in support of our people's struggle for national reunification.

Voices of international solidarity supporting our people's cause of national reunification rang out more loudly from the World Conference of Journalists against imperialism and for friendship and peace which was held in Pyongyang

from 2 to 6 July. Journalists and men of the press of many countries who attended the conference were unanimous in bitterly denouncing and rejecting the U.S. imperialists' occupation of South Korea and their "two Koreas" plot and the adventurous plan to start another war against the northern half of the republic. They also expressed active support to the proposals for national reunification advanced by our party and the government of the republic and firm solidarity with our people's just struggle for the independent and peaceful reunification of the country.

All this shows that the support and solidarity of the world's progressive people and public opinion aspiring after peace and peaceful reunification of Korea is growing stronger day by day throughout the world and the question of Korea's reunification is evoking all the ever greater interest among hundreds of millions of people the world over.

Foreign Countries Send Solidarity Messages

SK021035 Pyongyang KCNA in English 1011 GMT 2 Aug 83

[Text] Pyongyang, 2 Aug (KCNA)--A solidarity message or letters came from Lasa Daganai, deputy secretary general of the Asian Students Association, the vice-chairman and secretary general of the National Council of the National Front of the German Democratic Republic, the Central Council of Jurists Association of the Romanian Socialist Republic, N. Barnabo, secretary general of the Executive Committee of the National Confederation of Workers of Togo, Pavel Jonas, chairman of the Central Committee of the Czechoslovak Union of Cooperative Peasants, the Mozambican Association for Friendship and Solidarity With the World People, the Hungarian National Peace Council, the acting president of the Czechoslovak Peace Committee and the General Trade Union Confederation of Portugal to their counterparts of our country on the occasion of the month of anti-U.S. joint struggle.

In his letter the deputy secretary general of the Asian Students Association strongly protested against the scheme of the U.S. imperialists and the Chon Tu-hwan "regime" to convert South Korea into a nuclear base and to deploy neutron weapons there.

A letter from the vice-chairman and secretary general of the National Council of the National Front of the German Democratic Republic said that the GDR National Front, together with all the progressive forces of the world, consistently supports the demand of the Democratic People's Republic of Korea for the withdrawal of the U.S. troops from South Korea and for the peaceful solution of the question of the country's reunification without outside interference.

The Central Council of the Jurists Association of Romania said in its letter:

Romania fully supports the reunification programme put forward by the great leader Comrade Kim Il-song and opposed the "two Koreas" plot, and resolutely demands that all the foreign troops be withdrawn from South Korea and nuclear

weapons and foreign military bases be abolished so as to let the Korean people settle their own problems independently without any outside interference.

The secretary general of the Executive Committee of the National Confederation of Workers of Togo in his letter said:

The entire working people of Togo condemn the occupation of South Korea by foreign troops and resolutely oppose the dastardly manoeuvres of the imperialists to keep Korea divided.

A letter from the chairman of the Central Committee of the Czechoslovak Union of Cooperative Peasants noted that the building of military bases in South Korea and the scheme to knock into shape a new U.S.-Japan-South Korea tripartite military alliance, while holding such military exercises as the "Team Spirit 83" are the root cause of the tensions in the Far East, and expressed the belief that the Asian and world peaceloving people would denounce such dangerous moves of the U.S. imperialists.

A letter from the Mozambican Association for Friendship and Solidarity With the World People denounced all the splittist manoeuvres of the imperialists and the South Korean puppets and demanded the immediate and unconditional withdrawal of all foreign troops from South Korea.

A message from the Hungarian National Peace Council bitterly denounced the imperialists' moves against the Democratic People's Republic of Korea and the unprecedented arms buildup of the United Nations including its rearming of South Korea.

In a letter the acting president of the Czechoslovak Peace Committee fully supported the Korean people's struggle for the independent and peaceful reunification of the country.

The General Trade Union Confederation of Portugal in a letter expressed full support to the Korean people's just struggle for the withdrawal of the U.S. troops from South Korea and their efforts to reunify the country under the condition that democracy is realized and peace achieved in South Korea.

Foreign Publications Support DPRK Lines

SK031548 Pyongyang KCNA in English 1527 GMT 3 Aug 83

[Text] Pyongyang, 3 Aug (KCNA)--Foreign mass media published articles on the occasion of the month of anti-U.S. joint struggle, expressing support to the Korean people's cause of reunification.

The Mongolian paper UNEN said that the Mongolian public, on the occasion of the month of solidarity with the Korean people, wishes the fraternal Korean people fresh success in their just struggle for reunifying the country peacefully.

The Yugoslav paper MLADOST pointed to the louder voices of international solidarity supporting the Korean people's struggle for national reunification on the occasion of the month of solidarity with the Korean people.

The Finnish paper KANSAN UUTISET said that South Korea has become the biggest military base of the U.S. forces in Asia and a hotbed of war in this area.

Exposing that the imperialists are rendering the situation strained, bringing mass destruction weapons including nuclear weapons into South Korea, the Togolese paper LA NOUVELLE MARCHE called for the withdrawal of foreign troops from South Korea and the replacement of the armistice agreement with a peace agreement.

The Zambian paper TIMES OF ZAMBIA stressed that Korea should be reunified by the Korean people themselves without foreign interference in accordance with the proposal for founding the Democratic Confederal Republic of Koryo.

The French magazine NEWS OF KORYO expressed the belief that the proposal for founding the Democratic Confederal Republic of Koryo will be surely realised for its justness and realistic nature.

Foreign Papers Support DPRK Reunification Plan

SK041045 Pyongyang KCNA in English 1024 GMT 4 Aug 83

[Text] Pyongyang, 4 Aug (KCNA)--On the occasion of the month of anti-U.S. joint struggle, newspapers of various countries recently carried articles, stressing that Korea must be reunified on all accounts in accordance with the proposal for founding the Democratic Confederal Republic of Koryo.

The Czechoslovak paper PRAVDA said that in the three-year long Fatherland Liberation War, the heroic Korean people and people's army inflicted a heavy political and military defeat upon the U.S. imperialists, started them on the downgrade and won a great victory.

Noting that it is entirely due to the aggressive and belligerent moves of the U.S. imperialists and the Chon Tu-hwan puppet clique, their stooge, that Korea has not yet been reunified, the paper held that Korea's reunification should be realized in accordance with the proposal for founding the Democratic Confederal Republic of Koryo advanced at the Sixth Congress of the Workers' Party of Korea.

The Kuwaiti paper KUWAIT TIMES printed a portrait of the great leader Comrade Kim Il-song and introduced the ten-point policy to be enforced by the DCRK.

The French paper LA VIE OUVRIERE wrote:

Though everything was razed to the ground and burnt by the barbaric bombing of the U.S. imperialists in the past Fatherland Liberation War, the Democratic People's Republic of Korea has been turned today into a developed state,

socialist and industrial, under the wise leadership of the Workers' Party of Korea.

The Nepalese paper JANA CHETNA said:

The Korean people, firmly united under the guidance of the great leader Comrade Kim Il-song, defeated U.S. imperialism which was boasting of being the "strongest" in the world. This gave great strength and courage to the world's revolutionary people who are fighting against imperialism and for independence.

We strongly hold that Korea should be reunified in accordance with the three principles and five-point policy of national reunification and the proposal for founding the Democratic Confederal Republic of Koryo which were advanced by his excellency President Kim Il-song.

KCNA RECALLS U.S. ATROCITIES DURING WAR

SK271529 Pyongyang KCNA in English 1515 GMT 27 Jul 83

[Text] Pyongyang, 27 Jul (KCNA)--The atrocities committed by the U.S. imperialists during the Korean War were most shuddering crimes unprecedented in human history.

They perpetrated indiscriminate bombing and bombardment, taking as the target everything in the northern half of Korea from industrial establishments to schools, hospitals and even women doing their washing and children going to school, and razed to the ground all towns and villages, burning hills and fields.

During the period of temporary retreat the U.S. imperialist aggressors entered Seoul again and arrested more than 75,000 patriots and inhabitants in the city in three days, and slaughtered 1,000 of them instantaneously and over 38,000 people among those they detained in prison.

The U.S. imperialist vampires skinned the heads of patriots on 12 occasions in Seoul and took the skin as a "souvenir."

Harison who had occupied Sinchon, leading a unit of the U.S. imperialist aggression forces, made his appearance at the powder magazine in Wonam-ri, Sinchon Sub-county, and ordered his men to lock up mothers and their children separately in warehouses. Instructed by him, his men spread straw and gasoline over them and set fire and threw over 100 hand-grenades at the crying mothers and children, slaughtering more than 900 people in cold blood.

During their occupation of Sinchon they massacred 35,383 people, or a quarter of the county's population.

The U.S. imperialist aggressors who occupied the Unnyul Mine in October 1950 arrested more than 2,000 workers and their families and herded them into a pit after binding them together by tens by driving wire into their abdomens and slaughtered them. They also killed more than 300 people by cutting their bodies to pieces with straw-cutters.

Such monstrous atrocities were committed in all places where the U.S. imperialists aggression forces set foot.

The U.S. imperialists used without hesitation even germ and chemical weapons prohibited by international law.

In the winter of 1950, they spread small-pox germs in Pyongyang, North and South Pyongan, South Hamgyong and Kangwon and Hwanghae Provinces.

From January to March 1952, they dropped bacteriological bombs containing insects infected with most virulent infectious germs and their carriers on over 700 occasions in over 400 places of Kangwon, Hwanghae and North and South Pyongan Provinces and Pyongyang. They also dropped the asphyxiating gas bombs over Nampo, killing 1,370 people. Besides, they repeatedly took the lives of a large number of our people in many areas of Kangwon and Hwanghae Provinces by using tear-gas and asphyxiating gas bombs and shells.

The U.S. imperialists committed hair-raising atrocities against prisoners of war of our side by using flame throwers and rifles, driving tanks over them, throwing them into boiling water or starving them to death. They also used our prisoners of war in experiments of germ weapons and atomic bombs.

DPRK, FOREIGN MEDIA OPPOSE HOLDING IPU CONFERENCE IN SEOUL

KCNA Comments on South's IPU-Motivated Defense

SK231047 Pyongyang KCNA in English 1038 GMT 23 Jul 33

[Text] Pyongyang, 23 Jul (KCNA)—Papers here today come out with commentaries denouncing the Chon Tu-hwan puppet clique for creating a terror-ridden atmosphere in South Korea under the pretext of "coping with" some "confusion" with the approach of the Inter-Parliamentary Conference scheduled in Seoul.

On 20 July the Chon Tu-hwan group stated a "civilian defense day training" throughout South Korea, and is now planning military operations including "civilian anti-air raid training."

Noting that the Chon Tu-hwan clique are abusing the Inter-Parliamentary Conference for their treacherous acts, the signed commentary of NODONG SINMUN says:

This racket is a criminal move to complete war preparations under the pretext of preventing someone's "provocation" with the approach of the International Conference. While shipping in quantities of sophisticated weapons and equipment these days to reinforce the puppet army, the puppets mobilize the puppet army, police and even civilian forces in ceaseless provocative war exercises for a simulated attack on us.

They took steps for "readjusting and completing" the "mobilization posture" of all human and material resources of South Korea in preparation for the so-called "contingency."

Strengthening "civilian defence education" among the population, the Chon Tu-hwan group seeks to drive them together with the puppet army into military operations for stepping up war preparations.

The traitorous clique are making desperate efforts to create an atmosphere of terror in the South Korean society and bind the people more tightly to the military fascist club order with the approach of the Inter-Parliamentary Conference and thereby prevent them from rising in the anti-U.S., anti-puppet struggle and maintain their political "stability."

It is proved by the fact that they intend to intensively conduct drills by moving the period of "civilian defense education" for this year up to October, the month designated for the International Conference.

It is foolish of them to talk about the conference and the like while creating a horrifying atmosphere in South Korea.

Voices denouncing the Chon Tu-hwan puppet clique's fascist repression and war moves are ringing louder at home and abroad.

A signed commentary of MINJU CHOSON says: The South Korean puppets' war racket shows by itself that South Korea is unfit for an international conference.

Foreign Papers Applaud DPRK Daily IPU Opposition

SK040425 Pyongyang KCNA in English 1106 GMT 29 Jul 83

[Text] Pyongyang, 29 Jul (KCNA)—Papers of various countries recently reported "No one should fall a victim to imperialists' political intrigues," a commentator's article of NODONG SINMUN denouncing the imperialist scheme to hold the 70th convergence of the Inter-Parliamentary Union in Seoul.

The Syrian paper AL-BA'TH carried a summary of the article under the headline "Korea Denounces United States' Scheme to Hold Inter-Parliamentary Conference in Seoul," and the Nepalese paper AKHABAR printed the full text of the article titled "No One Should Fall a Victim to Political Plot of Imperialists."

The Egyptian paper AL-GOMHOURIA reported the gist of the article under the headline "Korea Opposes Convocation of 70th Inter-Parliamentary Conference in Seoul."

Guyanese Lawmaker Urges IPU Meeting Boycott

SK290436 Pyongyang KCNA in English 0338 GMT 29 Jul 83

[Text] Pyongyang, 29 Jul (KCNA)--R. Naraine, member of the National Assembly of Guyana, and Ashton Phillips, chairman of the Guyana Agricultural Allied Workers' Union, recently exposed the heinous intention of the U.S. imperialists and South Korean puppet clique to use for their political purpose the 70th Conference of the Inter-Parliamentary Union scheduled in Seoul in the coming October and called upon the member nations of the union not to attend it.

Speaking at a meeting held recently in celebration of the 30th anniversary of the victory of the Korean people in the Fatherland Liberation War, the National Assembly member said:

The splittist moves of the U.S. imperialists and the South Korean puppet clique must be thwarted and frustrated for accelerating Korea's reunification.

The designation of South Korea as the venue of the 70th Conference of the Inter-Parliamentary Union is a result of the intrigues of the U.S. imperialists and South Korean puppet clique. This is entirely a mockery and challenge to the independent and sovereign states and the member nations of the union.

I appeal to all the member nations to clearly see through the insidious scheme of the U.S. imperialists and South Korean puppet clique to use the 70th Inter-Parliamentary Conference for their political purpose of covering up their manoeuvres for "two Koreas" and a new war, and refuse to attend the conference scheduled in Seoul.

At a lecture given on the occasion of the 30th anniversary of the victory of the Korean people in the Fatherland Liberation War Ashton Phillips, chairman of the Guyana Agricultural Allied Workers' Union, said:

The decision to hold the 70th Conference of the Inter-Parliamentary Union in South Korea, a colony of the U.S. imperialists, is entirely an offspring of the U.S. imperialists' intrigues to cover up their "two Koreas" plot and occupation of South Korea.

The Inter-Parliamentary Union must never fall a victim to the political artifice of the U.S. imperialists and the Chon Tu-hwan clique to conceal the "two Koreas" plot and deliver themselves from international isolation.

RPR Appeals for IPU Boycott

SK292330 Pyongyang KCNA in English 2302 GMT 29 Jul 83

[Text] Pyongyang, 30 Jul (KCNA)--The Central Committee of the Revolutionary Party for Reunification on 25 July published an appeal to the political parties and parliaments of all countries of the world in connection with the conference of the Inter-Parliamentary Union scheduled in Seoul in October, according to Radio "Voice of the Revolutionary Party for Reunification."

Declaring that the convocation of the conference in Seoul totally contradicts the will of the South Korean people and the prevailing situation and reality indicate that South Korea is not a place suitable for it, the appeal stresses:

South Korea is a colony of the United States.

It has already turned into a barren land of democratic civil rights and a desolate graveyard of human rights.

South Korea is the worst living hell in the world and a fascist kingdom where man cannot preserve human dignity nor can have the elementary freedom.

It has also been turned into a fortress of anti-communist military fascism and the biggest powder magazine of thermonuclear war of Far East aggression by the U.S. imperialists.

South Korea is still less fit for the discussion of the problems of disputes, decolonisation and human rights on the agenda of the forthcoming Inter-Parliamentary Conference.

Pointing out that South Korea has been reduced today to a source of a most acute confrontation and conflict and a place where colonial dependence and strangulation of human rights are most pronounced due to the manoeuvres for the permanent split of the nation and war clamour for invading the North on the part of the U.S. imperialists and the Chon Tu-hwan clique, the appeal stressed that it does not conform to the idea of the Inter-Parliamentary Union to hold its meeting in such a place.

If its conference is to be held in conformity with its idea, the appeal says, its venue should not be such unstable place as South Korea where peace is wrecked and human rights are obliterated, but be a country of stability where peace prevails and human rights are guaranteed.

The Inter-Parliamentary Conference should be convened in a friendly and dignified independent state, not in colonial South Korea which takes the lead in hurling slanders at the socialist countries and estranging third world countries from each other and splitting them.

From approach of a country to the convocation of the Inter-Parliamentary Conference in Seoul is directly linked with the question of whether it is supports and encourages the struggle of our people or puts a spoke in the wheel of our people's just struggle.

The appeal stresses:

The political parties and parliaments of all countries should determinedly reject the Seoul Conference of the Inter-Parliamentary Union, if they sincerely support the righteous struggle of the South Korean people. This, we think, is a way of sincerely helping our South Korean people who are waging unceasingly a bloody resistance for national salvation.

In the name of the entire South Korean people, we appeal to the parliamentary delegates of socialist countries and the third world countries aspiring after independence against imperialism and all countries of the world who value justice and peace not to come to Seoul where aggression and treachery hold sway and bayonets are frantically brandished.

We express the hope that all the progressive political parties and parliaments of the world will thwart and frustrate the heinous scheme of the U.S. imperialists and the Chon Tu-hwan traitor clique to hold the Conference of

the Inter-Parliamentary Union in Seoul and extend more active support and encouragement to the just struggle of the South Korean people charging at the liquidation of the colonial fascist rule and the independent reunification of the country.

Foreigners Oppose IPU Conference in Seoul

SK301517 Pyongyang KCNA in English 1500 GMT 30 Jul 83

[Text] Pyongyang, 30 Jul (KCNA)--Public figures of various countries are lifting up their voices denouncing the scheme of the U.S. imperialists to hold the 70th Inter-Parliamentary Conference in Seoul in October.

Alice Nicolau, reporter of the Portuguese paper DIARIO DE LISBOA, said:

The U.S. imperialists and the Chon Tu-hwan puppet clique scheme to hold the 70th Inter-Parliamentary Conference in Seoul. This is their political plot against the Democratic People's Republic of Korea.

It is also a sinister intrigue of the world reactionaries led by the U.S. imperialists to create "two Koreas" and realize the proposal for "simultaneous entry into the UN" and "cross recognition."

Their scheme to hold the conference of the Inter-Parliamentary Union in Seoul is not only a grave challenge to the Democratic People's Republic of Korea but also an unpardonable challenge to the democratic parliamentarians of the world.

Mario Carpio Nicolle, general coordinator of the Association of Democratic Journalists of Guatemala, said:

The scheme of the U.S. imperialists and the South Korean "regime" to convene the 70th Inter-Parliamentary Conference in Seoul is entirely illegal either in view of international law or in the light of the practice of unanimity.

South Korea is a colony of U.S. imperialism and the South Korean "regime" is a colonial puppet regime which cannot exercise sovereignty. It is clear to everyone that an international conference cannot be held in South Korea.

Indian Parliamentarian H. S. Surjeet and former parliamentarian of Sri Lanka Pathirana Jayaratno said in their joint statement:

It will be a most surprising thing to accept the recent decision to hold the 70th Inter-Parliamentary Conference in Seoul of South Korea.

This is because South Korea is a colony dominated by the United States.

To talk about a sort of parliamentary democracy in such a place is incompatible with the thinking of people committed to peace and democracy.

Antonio Beaudoin, member of the party and government delegation of the Republic of Seychelles, who had participated in the World Conference of Journalists against imperialism and for friendship and peace, remarked:

It is wholly illegal to hold the 70th Conference of Inter-Parliamentary Union in South Korea, a complete colony of the U.S. imperialists.

Their frantic efforts to convene the conference in Seoul are a plot to save the Chon Tu-hwan puppet clique who are thoroughly isolated from and rejected by the Korean people and the world's progressive people and perpetuate the division of Korea by creating "two Koreas."

The question of whether to attend the conference or not is one whether one recognizes the South Korean puppet regime or not. Therefore, the progressive countries of the world must not attend the conference. I assure you that our Seychellois Government will not send its delegation to the 70th Inter-Parliamentary Conference slated in Seoul.

Tim Wheeler, delegate of the organ of the Communist Party of the United States DAILY WORLD, who had participated in the World Conference of Journalists Against Imperialism and for Friendship and Peace, said:

The Seoul puppet's scheme to host the 70th Inter-Parliamentary Conference was authored wholly by Reagan and is encouraged by the U.S. Central Intelligence Agency.

We will lift up our voices to frustrate the enemy's moves to hold the conference in South Korea by launching an extensive mass campaign in the United States.

Portuguese Journalists Oppose Seoul IPU Meeting

SK010514 Pyongyang KCNA in English 0414 GMT 1 Aug 83

[Text] Pyongyang, 1 Aug (KCNA)--All people who are fighting for Korean reunification and just cause in the world should lift up their voices against the shameless moves to hold the Inter-Parliamentary Conference in Seoul.

Alice Nicolau, journalist of the Portuguese paper DIARIO DE LISBOA, stressed this in his article published before his departure from Korea in denunciation of the intrigues of the U.S. imperialists and the South Korean puppet clique to hold the 70th Inter-Parliamentary Conference in Seoul.

Noting that the convocation of the conference in Seoul is an insult to the rights of all nations, he said:

In the period of fascist dictatorship in Portugal, the Inter-Parliamentary Union never approved of the convocation of its conference in Lisbon, because the then Portuguese Parliament failed to represent the free will of the people and perform its function as an independent parliament with a genuine legislation.

If an Inter-Parliamentary Conference were held in Seoul of South Korea, a colony under foreign occupation and the fascist puppet regime, it would mean violating the usage of this union.

Accordingly, for any parliamentarian to participate in the Seoul Conference means recognizing the puppet National Assembly of South Korea, disqualifying himself as a delegate and gravely violating the democratic idea of the parliament.

The scheme to hold the conference in Seoul is unreasonable also because South Korea is not a legitimate state.

As the world knows, the South Korean puppet regime was fabricated by the U.S. imperialists who occupied the southern half of Korea by force of arms.

There exists only the Democratic People's Republic of Korea, an independent, self-supporting and free state, on the Korean Peninsula.

Therefore, it is intolerable to hold the conference in South Korea where there are puppets who have no sovereignty and are not entitled to take seat in the Inter-Parliamentary Conference.

In scheming to hold the conference in Seoul, the U.S. imperialists seek an aim to give a semblance of legitimacy to the South Korean puppet government with no legitimacy and create "two Koreas."

If the conference were held in Seoul, the participants would be accomplices of the intrigues of the U.S. imperialists and gravely encroach upon the DPRK and the Korean people and peace in Asia and the world.

NODONG SINMUN Opposes IPU Meeting in Seoul

SK016633 Pyongyang KCNA in English 1551 GMT 1 Aug 83

[Text] Pyongyang, 1 Aug (KCNA)--In a review of the South Korean situation NODONG SINMUN Monday denounced the U.S. imperialists and the Chon Tu-hwan group for getting more hysterical in their clamour of war, fascism and anti-communist confrontation in South Korea under the pretext of the 70th Conference of the Inter-Parliamentary Union scheduled in Seoul.

The paper says:

During the last half month, the U.S. imperialists and the Chon Tu-hwan group raised louder outcries over the fiction of "southward invasion" while staging frantic war exercises against us allegedly for preventing possible "provocations" of someone around the Inter-Parliamentary Conference.

On 20 July the puppets staged a "civilian defence training" all over South Korea and on 25 July started a military exercise in South Cholla Province with the mobilisation of the puppet army and police and even population.

The U.S. imperialist aggressors committed grave military provocations, including an espionage act which they perpetratorily send the spy plane "SR-71" deep into the air above the territorial waters east of Kosong of our country.

Sennewald, commander of the U.S. imperialist aggression forces occupying South Korea, called a news conference in connection with the lapse of 30 years since the signing of the Korean armistice agreement blared that there would be no "change" in the U.S. forces presence in South Korea, which, he claimed, is an area directly linked with the "vital interests" of the United States, and "defence capabilities" would be built to inflict a "defeat" upon someone against the "threat of southward invasion."

The fascist clique created an atmosphere of terror, kicking up a row of "intensive roundup" and "check-up and search" all over South Korea.

On 17 July the Chon Tu-hwan group held a "ceremony of constitution memorial day" and preached "the defence of democratic constitutional government" and "fixation of democratic politics" in an effort to create the impression that there are democracy and parliamentary government in South Korea.

On the other hand, the U.S. imperialists sent ex-State Secretary Haig to South Korea, who appeared on the TV screen on 21 July and drivelled that "U.S. assurances of the freedom and independence of South Korea" would continue and the U.S. forces presence in South Korea represented the "sincerity of the alliance" between the United States and South Korea.

And they hurriedly sent an advance party for the preparation of Reagan's South Korean trip slated in mid-November to hold a confab with the puppets in Seoul.

This was a crafty act of the U.S. imperialists to disguise South Korea as an "independent state" with freedom, concealing the fact that it is their colony and an area of human rights stangulation.

In this the U.S. imperialists and the South Korean puppets intend to hold the International Conference without a hitch, ignoring the protest of the member nations.

Their scheme to abuse the International Conference for their sinister political purpose will invite stronger protest and denunciation within and without.

VRPR Cites S. Koreans' Objections

SK021025 Pyongyang KCNA in English 1003 GMT 2 Aug 83

[Text] Pyongyang, 2 Aug (KCNA)--The South Korean people are lifting up their voices against the criminal moves to hold the Inter-Parliamentary Conference in Seoul, according to Radio "Voice of the Revolutionary Party for Reunification."

Pak In-su, a university professor in Seoul, said:

It is intolerable to hold the Inter-Parliamentary Conference in Seoul. The attempt of the Chon Tu-hwan gang to host the conference at all costs is one more treacherous one violating the will of all the fellow countrymen for reunification. If this attempt is realized, the illegal fascist "regime" of Chon Tu-hwan will no doubt become all the more high-handed, encouraged by the United States and its satellites and the wall of territorial split be reinforced.

The backstage manipulator of this plot is the United States. We must put a definite end to the United States' domination over South Korea.

We must all unite as one man and reject and foil the Seoul Conference of the Inter-Parliamentary Union through an anti-American, anti-Chon Tu-hwan national-salvation resistance.

A churchman named Kim Chun-sam said: "It is an intolerable insult to us to hold the Inter-Parliamentary Conference in South Korea where there is neither elementary democracy nor freedom of speech," he continued:

To host the Inter-Parliamentary Conference in Seoul, the traitor Chon Tu-hwan dispatched Kwon Chong-tal, who proved himself "competent" in the big loan scandal to foreign countries for buying-over operations with girls and bribing operations with a fabulous amount of money. We cannot repress our indignation.

This shocking crime committed by the traitor Chon Tu-hwan deserves bitter denunciation in the name of our entire nation.

Besides, a certain Kim in Seoul and many workers, students and intellectuals said the scheme to hold the conference in Seoul is a political intrigue of the United States and the Chon Tu-hwan puppet clique, which can never be overlooked.

KCNA Cites RPR Paper Opposing Seoul IPU Meeting

SK040005 Pyongyang KCNA in English 1653 GMT 3 Aug 83

[Text] Pyongyang, 3 Aug (KCNA)--The 27 July issue of HYOKMYONG CHONSON, the organ of the Central Committee of the Revolutionary Party for Reunification, carried an editorial article titled "We Reject Seoul Conference of Inter-Parliamentary Union" in connection with the scheme to hold the Inter-Parliamentary Conference in Seoul, according to Radio "Voice of the Revolutionary Party for Reunification."

The holding of the conference in Seoul is unjust because it is diametrically contradictory to the mission of the Inter-Parliamentary Union, it notes, and continues:

Ostensively there are a "government" and a "parliament" in South Korea, but the purpose of their existence is to whitewash the neo-colonial rule of the United States.

The "National Assembly" of South Korea is a sample of a "government"-controlled "parliament" which has no legitimacy and does not rely on the people's will.

The admission of the "National Assembly" of South Korea existing in name only without any substance in the Inter-Parliamentary Union, an international organisation of sovereign nations, is a sort of political cartoon.

The Seoul conference is all the more unjust in view of the agenda items of the conference.

There is no reason to designate South Korea, which is publicly recognized as a world-famous colony, as the venue of the conference where decolonization is to be promoted, and there is no ground to choose South Korea, which is called a graveyard of human rights in the world, as the venue of the conference where the problem of human rights is to be discussed.

Holding a conference to discuss the settlement of disputes in any one part means encouraging it and would result in aggravating confrontation and disputes.

As for the problem of employment of youth and children in developing countries, South Korea is the last place where this problem should be discussed.

South Korea is a burying ground for youth and children where the problem of youth and children torments their parents, society and politics, and Seoul is a typical miniature of it.

As for the item of establishment of an equitable economic system, it does not need to further explain why Seoul is unfit for holding the conference.

The U.S. imperialists are trying to create favorable conditions for a permanent split through the convocation of the Inter-Parliamentary Conference in Seoul as part of the plot aimed at making one nation two nations and one state two states.

By inviting to Seoul parliamentary delegates of socialist and non-aligned countries which do not recognize South Korea at all under the pretext of an international conference, they scheme to distort the fact and have it recognized in the international community that South Korea is not a colony but an independent state and there exist two states on the Korean Peninsula, and thus make "two Koreas" a fait accompli.

In case parliamentary delegates of different countries participate in the Seoul conference, they would no doubt be entangled in the political intrigues of the U.S. imperialists and the Chon Tu-hwan clique to connive at and tolerate their aggressive and traitorous crimes internationally.

The Inter-Parliamentary Union and its member nations should not lose a big one while attempting to gain a small one at this conference, nor should they sacrifice other people. If they did, they would leave an indelible blot.

In any case, the socialist countries, non-aligned countries and third-world countries should not come to Seoul.

We believe our friends who helped us yesterday will help us today, too.

KSDP Urges Socialist Party Boycott

SK050459 Pyongyang KCNA in English 0402 GMT 5 Aug 83

[Text] Pyongyang, 5 Aug (KCNA)--The Central Committee of the Korean Social Democratic Party sent an open letter on 4 August to the socialist and social-democratic parties of all countries of the world in connection with the scheme of the United States and the South Korean puppets to convene the 70th Conference of the Inter-Parliamentary Union in Seoul.

Noting that the United States and the South Korean puppets try to further step up the "two Koreas" plot they have projected and justify the colonial fascist rule and war policy in South Korea with the Inter-Parliamentary Conference as an occasion, the letter says:

The so-called "regime" in South Korea is a colonial puppet regime which acts under the manipulation of the United States, having neither independence nor *chajusong*.

In South Korea there is no genuine parliament. In South Korea where there is no opposition party worthy of the name, the "National Assembly" is, to all intents and purposes, a maidservant of the "ruling party" and "administration" and exists only as a screen for veiling the colonial fascist rule.

In trying to convene the forthcoming conference in South Korea without any genuine democratic representative organ the United States intends to have South Korea "recognized" as an "independent state" and thereby make it appear as if "two states" existed in our country.

Accordingly, if the Inter-Parliamentary Conference is convened in Seoul, it will be embroiled in the "two Koreas" plot of the United States and the South Korean puppets to help them and this will result in dancing to the tune of the scheme to perpetuate the division of Korea contrary to the desire of the Korean people for reunification.

When we consider that the 70th Conference of the Inter-Parliamentary Union would deal with such problems as disarmament, peace, security and human rights, we cannot but have apprehensions about the results of the conference.

As for the problems of disarmament, peace and security, today it is entirely due to the United States that these pressing problems remain unsolved and it is in South Korea where the solution of these problems is most urgent.

With a design to turn South Korea into a bridgehead and military base for aggression in Asia, the United States is continuously reinforcing its aggression forces there. It has already deployed more than 1,000 nuclear weapons in South Korea and, not content with this, is planning these days to deploy there even neutron bombs, cruise missiles and "Pershing" medium-range nuclear missiles. It is also scheming to start a new war in Korea by knocking into shape a U.S.-Japan-South Korea tripartite military alliance. It is as plain as a pikestaff that if a war breaks out in Korea, it will precisely be a nuclear war and spread to other parts of the world to plunge mankind into another scourge of war, a nuclear holocaust.

Anyone can say that if the Inter-Parliamentary Conference is held in Seoul under such situation, it will be used in the war policy of the U.S. imperialists and the South Korean puppets.

The same can be said of the problem of human rights. Today it is an established fact that South Korea is the most horrible graveyard of human rights in the world.

The Chon Tu-hwan group of South Korea is the direct executor of the Kwangju massacre which aroused vehement indignation and hatred among the honest-minded people of the world and its "regime" is a murderous one which has sprung up from the sea of blood shed by fellow countrymen, ruthlessly suppressing and stamping out the elementary human rights and democracy of the South Korean people. This group strictly restricts the political activities of conscientious politicians and democratic figures and has put under house arrest, detained, tried, penalized or expelled abroad those who go against the grain with it.

This notwithstanding, the United States and its puppets are veiling the truth of human rights in South Korea, whitewashing and prettifying the beastiality and cruelty of the dictatorial government, tyrannical government.

It is unjust to hold the Inter-Parliamentary Conference in such a place.

Moreover, it cannot but be an insult to the Inter-Parliamentary Union that the South Korean puppets host the conference under the wirepulling of the United States, the chieftain of war and fascism.

As a socialist democratic party struggling for independence, sovereignty, democracy, peace and human rights and striving for the independent and peaceful reunification of the fatherland, we call upon the socialist and social-democratic parties of all countries not to attend the 70th Seoul Conference of the Inter-Parliamentary Union for the peaceful reunification of Korea and for peace in Asia and the world.

Hoping that you will affirmatively respond to our appeal, we express the belief that as in the past, so in the future, too, you will voice firm solidarity with the struggle of the Korean people for peace in Korea and her peaceful reunification.

FOREIGN MEDIA, LEADERS MARK ARMISTICE ANNIVERSARY

PRC Daily Marks DPRK War Victory

SK281615 Pyongyang KCNA in English 1538 GMT 28 Jul 83

[Text] Beijing, 27 Jul (KCNA)—The Chinese PEOPLE'S DAILY 27 July carried an editorial titled "The Desire of the Korean People for an Independent and Peaceful Reunification of the Fatherland Will Surely be Realized" on the occasion of the 30th anniversary of the victory of the great Fatherland Liberation War.

With their great victory in the Fatherland Liberation War the Korean people not only defended the independence and freedom of their fatherland, but also made a great contribution to the safeguarding of peace in Asia and the rest of the world, the editorial notes, and says:

Over the past 30 years the Korean people, adhering to the principles of independence, sovereignty and self-reliance under the leadership of the Workers' Party of Korea and the Government of the DPRK rapidly healed the war wounds, vigorously advanced along the road of the socialist revolution and construction and thereby achieved brilliant successes.

Today the Korean people are striving to hit the vast targets of the Second Seven-Year Plan, while intensifying the ideological, technical and cultural revolutions along the road indicated at the Sixth Congress of the Workers' Party of Korea.

In the international arena, the Government of the DPRK is pursuing an independent foreign policy, opposing imperialism and colonialism and strengthening unity and cooperation with the third world countries.

The international prestige of the DPRK is rising higher day by day.

The Chinese people sincerely rejoice over all the successes achieved by the fraternal Korean people and draw great encouragement from them.

Referring to the efforts made by the Workers' Party of Korea and the Government of the DPRK over the past 30 years to realize the sacred cause of reunifying the fatherland independently and peacefully, it continues:

The United States must withdraw all its armed forces from South Korea and stop interfering in the internal affairs of Korea.

The Chinese people are deeply convinced that no matter how tortuous the road would be, the national expectation of the Korean people for an independent and peaceful reunification of the fatherland will surely be realised.

China and Korea are friendly neighbours linked by the same mountain and the same river and the peoples of China and Korea are close brothers who go through thick and thin together.

In the past days of the war and in the present period of socialist construction, the peoples of the two countries have always advanced in firm unity, supporting and joining hands with each other.

The Chinese people greatly value the traditional friendship with the Korean people.

As in the past, so in the future, the Chinese people will resolutely support the Korean people till they have won final victory in the just struggle to achieve an independent and peaceful reunification of the fatherland.

[Text] Pyongyang, 29 Jul (KCNA)--A solidarity meeting of the officials of the Opole Provincial Lawyers Association, Poland, was recently held in Opole Province in celebration of the 30th anniversary of the victory of the Korean people in the great Fatherland Liberation War.

A letter to the great leader Comrade Kim Il-song was adopted at the meeting.

The letter says:

We consider that it is necessary for peace in Korea and the world to remove all the nuclear weapons from South Korea and replace the Korean armistice agreement with a peace agreement as demanded by world opinion.

We fully support the Korean people's struggle for the withdrawal of the U.S. troops from South Korea, which is indispensable for defending the national sovereignty, reunifying the two parts of Korea in a peaceful way and establishing a democratic system under your wise leadership.

We also support the proposal for founding the Democratic Confederal Republic of Koryo.

We consider that the realisation of this proposal is not only the greatest national task of the world people aspiring after chajusong (independence).

The letter wholeheartedly wishes the great leader Comrade Kim Il-song good health and a long life.

[Text] Pyongyang, 29 Jul (KCNA)—The great leader Comrade Kim Il-song, general secretary of the Central Committee of the Workers' Party of Korea and president of the Democratic People's Republic of Korea, received messages of greetings from the party and state leaders of various countries on the occasion of the 30th anniversary of the victory in the great Fatherland Liberation War.

Todor Zhivkov, general secretary of the Central Committee of the Bulgarian Communist Party and president of the Council of State of the Bulgarian People's Republic, in his message said:

The Bulgarian People's Republic and its working people extend invariable solidarity to the Korean people in their struggle for forcing the U.S. troops to withdraw from South Korea and achieving the peaceful reunification of the country on a democratic basis without foreign interference.

General secretary of the Central Committee of the Communist Party of Vietnam Le Duan and chairman of the State Council of the Socialist Republic of Vietnam Truong Chinh said in their message:

The Vietnamese people, the Communist Party of Vietnam and the Government of the Socialist Republic of Vietnam vehemently denounce the intrigues of the U.S. imperialists and their stooges to create "two Koreas" and bar the cause of reunification of Korea, demand that the United States give up all its acts of interference in Korea and withdraw immediately and completely all its weapons including the nuclear weapons and troops from South Korea and hold that the question of Korean reunification should be solved by the Korean people themselves without any foreign interference.

Agatha Barbara, president of the Republic of Malta, in her message said:

I am convinced that the Korean people will open up a brighter future by founding the Democratic Federal Republic of Koryo and reunifying the country under the wise leadership of your excellency Kim Il-song, the great leader.

Ali Abdallah Salih, general secretary of the General People's Congress, who is president of the Yemen Arab Republic and commander-in-chief of the armed forces, said that he was glad to extend wholehearted and warmest congratulations to the great leader at the time when the friendly Korean people were celebrating the 30th anniversary of their victory in the Fatherland Liberation War.

Franz Muhri, chairman of the Central Committee of the Communist Party of Austria, said in his message.

It assumes greater significance than ever before to look back upon the heroic exploits displayed by your people in their struggle for defending the motherland at the present juncture when the U.S. imperialists are becoming more undisguised in their aggressive manoeuvres against the Korean people and the Far Eastern people after deploying nuclear weapons in South Korea and while expanding military bases there.

We express solidarity firmly linked by internationalist spirit in the energetic struggle against the enemies' moves.

Japan-Residing Foreigners Demand Troop Withdrawal

SK291558 Pyongyang KCNA in English 1519 GMT 29 Jul 83

[Text] Pyongyang, 29 Jul (KCNA)--Twenty-five anti-nuclear peace champions including scholars, pressmen and religionists from 11 countries such as the United States, Britain, France, Canada, Italy, Australia, Nigeria and Argentina, who are now residing in Japan, issued an appeal on 27 July calling for the replacement of the armistice agreement by a peace agreement and for the withdrawal of the U.S. forces and nuclear weapons from South Korea on the occasion of the lapse of 30 years since the ceasefire in Korea, according to a KNS report from Tokyo.

Denouncing the U.S. administration for hatching up a plot to deploy neutron weapons in South Korea while stepping up the moves to form a U.S.-Japan-South Korea tripartite military alliance, the appeal says:

1. The U.S. administration must immediately give up the criminal scheme to introduce neutron weapons into South Korea and withdraw all its nuclear weapons and forces from there.
2. We resolutely oppose the moves to form a U.S.-Japan-South Korea trilateral military alliance.
3. The United States must accede to the proposal of the Democratic People's Republic of Korea for replacing the armistice agreement by a peace agreement.
4. Korea should be reunified independently and peacefully on a democratic principle by the Korean people themselves without foreign interference.

Noted Japanese Call for Reunification of Korea

SK311126 Pyongyang KCNA in English 0904 GMT 31 Jul 83

[Text] Tokyo, 29 Jul (KNS-KCNA)--Three hundred fifty-six noted figures of Japan issued an appeal on 27 July in joint name calling for promoting a

lasting peace in Northeast Asia and the independent and peaceful reunification of Korea upon the lapse of 30 years since the signing of the Korean armistice agreement. Among them are Chairman of the Japan Socialist Party Ichio Asukata, Independent Dietmen Tokuma Utsunomiya and Ryokichi Minobe, Chairman of the General Council of Trade Unions of Japan Motofumi Makieta, Vice-President of the International Liaison Committee for the Independent and Peaceful Reunification of Korea Makoto Ichikawa, Chairman of the Japan Committee for Supporting the Independent and Peaceful Reunification of Korea Akira Iwai, Chairman of the Japan Women's Council Masako Yamashita, General Director of the Japan-Korea Culture Exchange Association Yoshihisa Kajitani, Honorary Professor of Tokyo Municipal University Chiro Suzuki, Lawyer Morikawa Kinju, and writer Masamoto Natsubori.

Noting that since the signing of the armistice agreement the United States has kept South Korea under its colonial rule and shipped nuclear weapons into South Korea in violation of the provisions of the armistice agreement and has been holding large-scale military exercises, the appeal said: This has created the danger of a nuclear war on the Korean Peninsula.

Pointing to the Chon Tu-hwan military fascist clique's brutal suppression of the people and Nakasone's strengthening of the military tieup with the United States and South Korea, the appeal said:

We demand the immediate withdrawal of all foreign troops and nuclear weapons from South Korea.

We also demand that the armistice agreement be replaced with a peace agreement for a lasting peace on the Korean Peninsula and talks be held for a peaceful solution of the Korean question.

At the same time, we demand that the Japanese Government give up the Japan-U.S.-South Korea military integration, abolish Japan-South Korea fusion, radically rectify its hostile policy towards Korea and stop interfering in the struggle of the Korean people to achieve the reunification of the country, the cherished desire of the nation.

Foreign Papers Mark Korean War Victory

SK021528 Pyongyang KCNA in English 1514 GMT 2 Aug 83

[Text] Pyongyang, 2 Aug (KCNA)--Foreign papers recently published articles on the 30th anniversary of the victory of the Korean people in the great Fatherland Liberation War.

The Chinese PEOPLE'S DAILY on 26 July carried an article titled "July 27, 1953, On the Demarcation Line" and an editorial next day under the headline "Korean People's Desire for Independent and Peaceful Reunification of the Country Will Surely Be Realized."

The Chinese LIBERATION ARMY DAILY on 27 and 28 July carried articles under the respective titles "Retrospecting Counterattack in Kumsong" and "Visit to Pukhwa 30 years later."

The editorial of PEOPLE'S DAILY notes that the Korean people not only defended the independence and freedom of the country but also made an important contribution to defence of peace in Asia and the rest of the world by winning a great victory in the Fatherland Liberation War.

Recalling that Comrade Kim Il-song put forward the three principles of independence, great national unity and peaceful reunification, the five-point policy, the proposal for founding the Democratic Confederal Republic of Koryo and its ten-point policy, the editorial stresses:

The United States must withdraw all its armed forces from South Korea and stop interfering in the internal affairs of Korea.

The Chinese people set great store by their traditional friendship with the Korean people.

The Chinese people will resolutely support the Korean people as in the past, so in the future, too, till they have won final victory in their righteous struggle for the independent and peaceful reunification of the country.

A recent issue of the Yugoslav paper POLITIKA notes that the great leader Comrade Kim Il-song put forward the proposal for founding the Democratic Confederal Republic of Koryo and the three principles of national reunification.

It says:

The withdrawal of the U.S. troops from South Korea is the primary point demanded by the DPRK Government for reunification.

The demand for the withdrawal of the U.S. troops from South Korea is for the Koreans to create actual conditions for deepening trust between the North and the South and shaping their destiny by their own efforts.

A recent issue of the Polish paper ZYCIE WARSZAWY noted that the U.S. imperialists and the South Korean puppet clique persist in their "two Koreas" plot despite the proposal for founding a confederal state for national reunification advanced by the Government of the Democratic People's Republic of Korea.

FOREIGN PAPERS FLAIL TRIPARTITE ALLIANCE

SK281123 Pyongyang KCNA in English 1100 GMT 28 Jul 83

[Text] Pyongyang, 28 Jul (KCNA)--Foreign papers recently carried articles denouncing the scheme to form a tripartite military alliance of the United States, Japan and South Korea.

The Czechoslovak paper PRACE printed an article captioned "Dangerous Three-Way Military Alliance."

It said:

To establish a military and political system by framing up a tripartite military alliance means enhancing Japan's militarist role in meeting the aggressive demand of the United States.

In Washington's scheme to form a tripartite military alliance, the United States is to seize the overall military and political command, Japan to be made the economic foothold of the military bloc and the South Korean puppet army to be made the cannon fodder.

The Mongolian paper ULAAN OD said that the decision of the Japanese "Defence Agency" to stage joint military exercises with the United States in South Korea is part of the moves to form a close "alliance" between the present Japanese Government and the South Korean puppet.

It stressed: The scheme to knock into shape a tripartite military alliance between the United States, Japan and South Korea is being carried into practice and its formation will create a greater danger to the Asian nations.

The Nepalese papers PRAKASH and JANATAGARAN denounced the scheme to form a United-States-Japan-South Korea tripartite military alliance.

SOUTH'S PAPER QUOTED IN PLAYING NATIONAL ASSEMBLY

SK020811 Pyongyang KCNA in English 0800 GMT 2 Aug 83

[Text] Pyongyang, 2 Aug (KCNA)--A recent issue of a South Korean paper in an article titled "'National Assembly' Closes as Soon as it Opens" flayed the crimes of the puppet National Assembly engrossed in making empty talk.

Recalling that the recent "Extraordinary National Assembly Session" closed after five days of jawbone fighting, the paper said it is not without reason that the South Korean people and public circles are denouncing the vapid, worthless "National Assembly."

The paper expressed discontent, saying that though many problems including the problem of "lifting the ban on political activities" and the problem of the "basic law on the press" remain to be settled, political charlatans in the "National Assembly" are turning away their faces from them.

The paper repeatedly criticized the puppet National Assembly where hooligans of the "Democratic Justice Party," the private party of the traitor Chon Tu-hwan, and his faithful underlings are acting the sole master without a rival, working as a servant of the fascist dictatorial power.

'MINDAN' GROUPS PLAY DISSOLUTION OF KIM'S CASE

SK040827 Pyongyang KCNA in English 0801 GMT 4 Aug 83

[Text] Pyongyang, 4 Aug (KCNA)—A Japan headquarters of the "National Congress for the Restoration of Democracy in South Korea and the Promotion of Unification" ("Hanmintong") and the "Committee for the Rescue of Kim Tae-chung," organizations of "Mindan"-living Koreans in Japan, held a press conference in Tokyo on 1 August and issued a statement in joint name in denunciation of the Japanese Government authorities' decision that day to dissolve the Kim Tae-chung kidnap case "special investigation headquarters" and discontinue the investigation of the case, according to a KNS report from Tokyo.

Noting that the dissolution of the "special investigation headquarters" is based on the established policy of the Japanese Government aimed at "completely closing up" the kidnap case, the statement said:

With the lapse of ten years since the kidnap case just at hand, the movement demanding the reentry of Kim Tae-chung into Japan and a fair solution of the case is again gaining momentum. The step taken by the Japanese Government against such background is an intolerable challenge to the public opinion at home and abroad.

The statement demanded the Japanese Government to abrogate the deceptive "political settlement" with South Korea, probe into the truth of the case, realise the reinstatement of Kim Tae-chung to his original status and work for the complete settlement of the case.

We will continue to struggle in firm unity with the world people for the complete settlement of the Kim Tae-chung kidnap case, the statement stressed.

Isaji Tanaka, ex-justice minister and member of the Lower House of Japan, in his talk issued in connection with the step of the Japanese authorities, emphasized:

The essence of the Kim Tae-chung case is whether Japan's sovereignty was violated or not. We cannot repress indignation at the attempt to settle this case by a dubious method making one doubt whether investigation is

conducted or not. This is a result of the government's act of making a political settlement favourable to it.

The investigation authorities must have been aware of the truth of the case and it must have been backed by evidences. If a period is put to the case without publishing these facts, it will be a national disgrace.

Hideo Den, representative of the Social Democratic Federation, said: The fingerprint of Kim Tong-un, one of the criminals involved in the Kim Tae-chung kidnap case, is an undeniable proof from an international point of view. The case must not be hushed up while having such evidence, for this is a submission to a wrong political judgment of the investigation authorities.

Independent member of the Upper House, Tokuma Utsunomiya said: If the government has no intention to actively conduct work to clarify the Kim Tae-chung case, there is no alternative but to carry out the investigation by civilians. First of all, the question must be settled after realising the reentry of Kim Tae-chung into Japan and his reinstatement to his original status and, on this basis, a dirty thing behind the case must be made clear.

CHRISTIAN GROUP HITS GRAVES DISPERSING 'SCHEME'

SK040456 Pyongyang KCNA in English 0346 GMT 4 Aug 83

[Text] Pyongyang, 4 Aug (KCNA)—Kim Song-yol, vice-chairman of the Central Committee of the Korean Christians Federation, issued a talk on 3 August in denunciation of the South Korean fascist clique's scheme to dig up and remove the cemetery of victims of the Kwangju Popular uprising.

He said this scheme shows that the fascist clique is the murderer and enemy of Kwangju and that it feels very fearful that its crimes should be brought to further exposure with the Inter-Parliamentary Conference as an occasion.

He continued: The Chon Tu-hwan group intent on the scheme to wipe out all the anti-U.S., anti-fascist elements before the Inter-Parliamentary Conference is sending large repressive forces to Kwangju, regarding it as the "most dangerous area," and stretching its talons of suppression even to the cemetery of victims of the Kwangju uprising.

With nothing, however, can the Chon Tu-hwan group of murderers stamp out the exploits of the Kwangju uprisers who recorded a most brilliant page in the annals of the anti-fascist resistance for democracy of the South Korean people.

The murders will be severely judged by history and punished for their indelible crimes.

I believe that the South Korean people and Christians will explode their pent-up resentment and throw the traitor Chon Tu-hwan and his master, the U.S. imperialist aggressors, into the flames of a new "Kwangju resistance."

NODONG SINMUN ON ECONOMIC INDEPENDENCE

SK211054 Pyongyang KCNA in English 1004 GMT 21 Jul 83

[Text] Pyongyang, 21 Jul (KCNA)--The respected leader Comrade Kim Il-song's outstanding idea and policy on economic independence serve as a guideline to be held fast to in building a completely independent and sovereign state and a prosperous new society, stressed NODONG SINMUN 20 July in an article titled "Economic Independence Is Firm Guarantee for the Building of Independent and Sovereign State."

Noting that economic independence is an indispensable condition and firm guarantee for the building of an independent and sovereign state, the article says the economic independence makes it possible to consolidate political independence, maintain chajusong (independence), achieve prosperity of the country and constantly improve the people's living.

Now that the imperialists are resorting to crafty intrigues to infiltrate into newly independent countries and continue with domination and plunder under the signboard of "aid" and "cooperation," the latter should intensify the struggle for economic independence to the completely independent and sovereign states.

In order to build an independent national economy, it is imperative to adhere to the principle of self-reliance, the article notes, and says:

It is a basic way for the building of an independent national economy to mobilise the strength of the people and resources of the country and rely on one's own resources and technology on the principle of self-reliance.

To strengthen economic and technical cooperation is an important demand in the building of an independent national economy.

Economic and technical cooperation is raised as a more urgent demand in the non-aligned and developing countries. Economic and technical cooperation between new-emerging countries plays an important part in ensuring their economic independence and increasing the economic power.

The non-aligned and developing countries have inexhaustible human and natural resources and great economic potentials.

They have not a few good experiences and techniques for mutual exchange.

If they effectively utilise these possibilities and strengthen economic and technical cooperation, they will achieve economic independence and prosperity without depending on big powers. Furthermore, they will repulse the imperialist policy of aggression and plunder, defend national dignity and interests, destroy the old international economic order and establish a new one.

The non-aligned and developing countries should mobilize their own potentials to the maximum on the principle of individual and collective self-reliance and strengthen many-sided economic and technical cooperation and thereby lay the solid independent foundation of the national economy.

KIM CHONG-IL'S GUIDANCE ON ROLLING STOCK PLANT PRAISED

SK291530 Pyongyang KCNA in English 1502 GMT 29 Jul 83

[Text] Pyongyang, 29 Jul (KCNA)--The 4 June rolling stock factory is a leading factory of its kind in Korea.

It mass-produces 60-ton wagons, refrigerating cars and oil tankers and other wagons of special use.

Two hundred and fifty wagons for transport of headings, 360 wagons for transport of gravel and hundreds of other wagons were produced there in the first five months of this year.

In the pre-liberation days the factory was merely a wagon repair shop.

It has turned into a large rolling stock production base with a big production potential after the country's liberation under the wise guidance of the great leader Comrade Kim Il-song.

He gave on-the-spot guidance to the factory on 16 occasions and clearly indicated the road to be followed by it at each stage and in each period of the revolutionary development.

He called at the factory in the difficult postwar period when everything was lying in ashes, personally chose the construction site of the factory and sent manpower, equipment and materials needed for its construction.

When the workers of the factory manufactured a 30-ton wooden wagon for the first time by displaying the revolutionary spirit of self-reliance, he expressed deep trust in them, saying with great satisfaction nothing will be impossible if we work as they did.

Under his trust and care the factory turned out chilled wheels by its own efforts, following the production of the 30-ton wooden wagons in march 1958, and then 60-ton wagons in 1959.

The material and technical foundations of the factory have been improved under the energetic guidance of the dear leader Comrade Kim Chong-il.

In May 1965 he visited the factory and said its production processes should be constantly improved in keeping with the developing reality, and explained in detail how to realize this.

In recent years the factory created and produced many modern machines under his meticulous guidance and care, such as extra-large U steel equipment, extra-large horizontal forging machines, 6,000-ton oil press, 5,000-ton sheet press. This year it completely introduced pressing and stamp forging methods in the production of wagons.

The output of this factory grew nearly 100 times as against 1944, the year before liberation.

Now general processing and chassis shops with a production area of tens of thousands of square metres are under construction. When they are finished, the wagon production capacity of the factory will nearly double.

In the factory there are more than 1,000 competent technicians and specialists.

It has also a factory college of university level, specialized school, skilled workers school, nursery, kindergarten, house of culture, hospital and sanatorium and all other conditions for the employees to study to their heart's content and work and live with no inconvenience.

The workers of the factory are now effecting innovations in the production of rolling stock to carry out the decisions of the Seventh Plenary Meeting of the Sixth Central Committee of the Workers' Party of Korea.

DAILY CITES POST-WAR PYONGYANG CITY RECONSTRUCTION

SK041527 Pyongyang KCNA in English 1500 GMT 4 Aug 83

[Text] Pyongyang, 4 Aug (KCNA)--NODONG SINMUN today observes the lapse of 30 years since the great leader Comrade Kim Il-song unfolded a bright blueprint of the rehabilitation and construction of Pyongyang.

Noting that the respected leader Comrade Kim Il-song, with a deep insight into the importance of construction, indicated the direction of post-war rehabilitation and construction already in the period of the Fatherland Liberation War, examined the general plan of the rehabilitation and construction of Pyongyang on the third day after the ceasefire and energetically guided the work for carrying it into practice, the paper says:

The chuche-based idea of capital construction advanced by him is an unshakable guideline which should be constantly adhered to in the constructive work for socialism and communism and a powerful theoretical and practical weapon for effecting an epochal leap in this work. Comprehensively consummated here are all the problems from the essence and content of architecture and construction of socialism and communism to the direction of its development, principles to be maintained here and the system of guidance and management of this work. This great idea has enabled our people to turn their country which had been left in a century-old backwardness and razed to the ground in the war into a powerful socialist state full of grand monumental creations and buildings of our era.

Stressing that our party raised it as a problem of principle and a basic orientation decisive of success in architecture and construction to carry through the chuche-based idea and theory of capital construction of the great leader Comrade Kim Il-song and has led this work along a correct road, the paper says:

Our party advanced particularly a new idea and theory on the constructive work in conformity with the new historical demand when socialist industrialisation has been completed and the work of modelling the whole society on the chuche idea is being carried out on a full scale under the leadership of the respected leader Comrade Il-song and put forward a revolutionary policy for effecting a great upsurge and turn in construction. The party's policy of capital construction elucidates all the principles and theoretical and practical problems to be held fast to in the constructive work as a whole from the construction of grand monumental edifices based on the original idea of the

character and mission of architecture of our era to industrial construction and building of dwelling houses in towns and countryside.

The sagacity of the leadership of our party which unfolded a new heyday of the chuche-based architecture and construction lies in the fact that it radically expands the scope of this work with its bold and gigantic designs and operations and applies completely new original styles and methods of architecture.

For these mighty policies all the architectures which have risen up in our country are artistic works which have reached the highest peak in plastic artistic depiction and ideological and aesthetic level and are unique creations in content and style.

Our party has developed an unheard-of leaping speed in architecture and construction.

Indeed, our party's leadership of the constructive work is shining as a great leadership which has brought into full bloom the intention of the respected leader Comrade Kim Il-song to increase the might of the country, accelerate socialist construction and radically enhance the material and cultural living standards of people in a short time.

POWER GENERATION 'SWELLING BY LEAPS AND BOUNDS'

Pyongyang THE PYONGYANG TIMES in English 20 Jul 83 p 1

[Text]

Power generation is swelling by leaps and bounds thanks to the strenuous efforts made by the workers, technicians and three-revolution-team members in this sector.

According to the statistics released recently, the power output was 1,300 million kwh in the first six months of this year greater than the same period of last year.

The great leader President Kim Il Sung said

"In the power industry we must maximize the generation of electricity through an effective use of the existing generating capacities, while at the same time endeavouring strenuously to create more generating capacities."

The year 1983 is a very important year when the Second Seven-Year Plan (1978-84) will be fulfilled ahead of schedule and a firm foundation provided for attaining the ten long-term objectives of socialist economic construction in the 1980s.

In his New Year Address, the great leader President

Kim Il Sung called for directing great efforts to power engineering in order to meet the growing demand for electricity.

The response to his call was immediate, and all-out efforts were launched from the very beginning of this year to increase the power output through an effective utilization of the existing generating capacities.

The Puongang Power Station raised the efficiency of water-power installations through their better technical management, resulting in the fulfilment of the projected plan for the first half year at 108.9 per cent, and the Changjingang Power Station recorded a 10-day preschedule fulfilment of the plan.

The excellent performance has been shown in the thermal power stations which account for over 50 per cent of our total generating capacity.

At the Pyongyang Thermal Power Plant an effective measure was taken to shorten the time of repairing the main

equipment and put all generators into full operation, which resulted in exceeding its first half year plan by 4.7 per cent. In July, too, every day is witnessing the overfulfilment of the plan.

Transmission lines and transmitting structures throughout the country are being reinforced to promote electricity supply to all the economic sectors.

The national electricity control board controls and regulates the main plants in order to effectively use the produced power. An electric controller for shift production is introduced extensively so as to prevent the loss of electricity.

Thanks to the efforts of the workers, technicians and three-revolution-team members in the power industry who are sweeping forward towards the target of 100,000 million kwh, factories and enterprises are free from the shortage of power and a new productive upswing is taking place.

29 JULY ISSUE OF PRAVDA INTRODUCES DPRK VILLAGE

SK041103 Pyongyang KCNA in English 1043 GMT 4 Aug 83

[Text] Pyongyang, 4 Aug (KCNA)--The 29 July issue of the Soviet paper PRAVDA carried an article of its Pyongyang correspondent introducing Korea under the title "In Changed Land."

The author wrote about the Yongsan Cooperative Farm in Kaepung County in the southernmost part of the northern half of Korea.

Referring to the change of the farm, he said:

The farm has many machines such as rice-transplanting machines and rice harvesting combines.

It can be seen at the first glance that Yongsan Village is an ordinary one to be seen in any county and any province of people's Korea. White houses with red tile roofs are nestling in the green woods of the orchard.

A two-storied middle school, a people's hospital, a shop and a kindergarten are seated in the centre of the village.

The peasants of Yongsan live an affluent and creative life.

Saying that he felt most deeply the tragic division of Korea in this village close to the demilitarized zone, the author continued:

When I turned my eyes to the opposite side of the river, I saw the Kanghwa Island.

Huge armed forces are concentrated in the area south of the demilitarized zone. The explosion of hand-grenades and shells is rending the stillness of the air.

The peasants of Yongsan Village saw the explosions often. Therefore, they resolutely support the efforts of the DPRK Government for the solution of the Korean question.

A party worker there told us:

The U.S. imperialists, together with the South Korean puppet regime, are ceaselessly committing grave provocations against our people. If the U.S. troops are withdrawn from South Korea, the Koreans in the north and the south will find a common denominator and reach an agreement on the proposal for the peaceful reunification of the country.

Reflected in these words is the earnest desire of the Korean people.

TONGCHON COUNTY TURNED INTO 'PARADISE' BY PARTY

SK031544 Pyongyang KCNA in English 1518 GMT 3 Aug 83

[Text] Pyongyang, 3 Aug (KCNA)--Tongchon County, Kangwon Province, on the east coast, has changed its looks as a people's paradise under the benevolent sunrays of the glorious Workers' Party of Korea.

The place was once known to be unfit for human habitation for the leanness of land and strong wind. Now there various domains of the national economy, such as industry, agriculture and fisheries, and culture have made proportional development and people's living standards are rising day by day.

The great leader Comrade Kim Il-song gave an on-the-spot guidance to Tongchon County on several occasions and indicated a clear road before it, showing constant care for it.

More than 20 locally-run factories operate in the county. Their products of more than 600 kinds are more than enough to meet the demand of the county people. The county's gross local industrial output value showed a 50 percent jump during the last five years.

Agriculture has also made a fast progress.

Irrigation and electrification were completed long ago and comprehensive mechanisation and chemicalisation are being stepped up vigorously.

Many cooperative farms reap 11 tons of maize and more than 8 tons of rice per hectare last year from the land which yielded no more than 0.8 tons of maize and 1.2 tons of rice before liberation.

As compared with the pre-liberation days, the area under fruits has expanded more than 15 times and the output of apples, pears, persimmons and other fruits has gone up 25 times.

With fisheries developing, the county supplies fresh fishes to other areas all the year round after meeting its own demand.

Some 50 schools at all levels, many nurseries and kindergartens and the county people's hospital and tens of ri people's hospitals and clinics are found in

the county and a holiday home and sanatoria for working people are located on the seabeach of scenic beauty.

Water and bus services have been introduced into rural villages and a sufficient number of TV sets have found their way into all the populated areas.

Tonchon County has undergone a radical change in recent years under the meticulous guidance and deep care of the dear leader Comrade Kim Chong-il.

The dear leader paid deep attention to building the county neat and tidy and clearly indicated its direction and ways.

Under his energetic guidance well-furnished bathhouses have been constructed in the county seat and all villages and many public buildings, multi-storeyed flats and modern houses have risen to go well with the scenery of the sea.

The county people who are enjoying happiness in the flowering paradise which is changing its appearance day by day, are waging a vigorous drive to create the "speed of the 80's," singing the great kindness of the party.

SK291209 Pyongyang KCNA in English 1029 GMT 29 Jul 83

[Text] Pyongyang, 9 Jul (KCNA)--Jean Paul Nyoupande, dean of the humanity faculty and professor of philosophy of the [word indistinct] University of Central Africa, recently issued a talk after deeply studying "Let us Advance Under the Banner of Marxism-Leninism and the Chuche Idea," a treatise of Comrade Kim Chong-il, member of the Presidium of the Politburo and secretary of the Central Committee of the Workers' Party of Korea.

He said:

What draws my particular attention in the treatise is a profound and clear-cut analysis of the historical victory and experiences of the Korean revolution which was pioneered and has advanced under the banner of Marxism-Leninism and the chuche idea.

President Kim Il-sung founded the chuche idea, proceeding from the reality of Korea and the desire of the Korean people, and clearly indicated the fighting tasks and ways on its basis.

The dazzling successes achieved by the Korean people under his wise leadership prove the validity and great vitality of the chuche idea founded by him and the strategic and tactical policies expounded by it.

By successfully applying the chuche idea to the reality under his wise leadership the Korean people once oppressed and humiliated have become an independent people seizing their destiny in their hands and building a self-supporting national economy to live a happy life.

The brilliant successes of the Korean people evoke admiration throughout the world and they are an example of the third world people.

The experience in Korea shows that even a small country can overcome difficulties and extricate itself from backwardness and poverty, if it holds its destiny in its hands and actively taps its own potentials, relying upon the relative strength of its people.

The brilliant treatise of his excellency Kim Chong-il, the dear leader, is a very important work which gives a good knowledge of the secret of the successes of the Korean people to the Central African people and other third world people and indicates a correct road of building a new society.

The letter from the attendants of the round-table conversation says:

The U.S. imperialists must draw a proper lesson from their shameful defeat in the past Korean war and withdraw from South Korea without delay.

Today your country under the outstanding leadership of his excellency great President Kim Il-song and esteemed your excellency the dear leader, has turned into a powerful socialist state which can defeat any aggressor.

If the U.S. imperialists start another war of aggression in Korea, failing to see this stark reality, they will suffer a heavier defeat than in the past war and meet their final doom.

We wish an early realisation of Korea's reunification.

The basic obstacle to Korea's reunification is the occupation of South Korea by the U.S. troops.

We oppose the scheme to form the tripartite military alliance of the United States, Japan and South Korea and will more vigorously fight for the abrogation of the "Japan-U.S. Security Treaty."

We are convinced that the Workers' Party of Korea and the Korean people firmly united around his excellency President Kim Il-song in one idea and purpose will register greater successes under the guidance of his excellency Secretary Kim Chong-il.

I wish good health and a long life to his excellency President Kim Il-song, the great leader, and his excellency Secretary Kim Chong-il, the sagacious leader.

DAILY HITS U.S. LATIN AMERICA MILITARY EXERCISES

SK300456 Pyongyang KCNA in English 0443 GMT 30 Jul 83

[Text] Pyongyang, 30 Jul (KCNA)--The U.S. imperialists must take their hands off aggression and intervention off Central America and stop reckless military exercises threatening the peoples of this region.

RODONG SINMUN today says this in a commentary flaying the plan of the U.S. Defence Department to hold a joint military exercise of the U.S. forces and the Honduran Army in Honduras early August.

The author of the commentary says:

The U.S. imperialists plan to stage a large-scale military exercise in Honduras gravely jeopardises peace and security in Central America and is an outrageous provocation against and threat to the peoples of Nicaragua and El Salvador in particular.

The U.S. imperialists are viciously scheming to stifle the Nicaraguan revolution and stamp out the struggle of the Salvadorian people for independence and liberation. They are arming and training the Somoza remnants and massively infiltrating them into Nicaragua in an attempt to launch a direct armed intervention against this country and are supplying the Moribund military fascist dictators of El Salvador with large quantities of lethal weapons, driving them out to the "scorched-earth operations" to massacre their people. And the U.S. imperialists are ceaselessly instigating the Honduran reactionaries to military provocations against the Nicaraguan people.

In this way they try to stem the powerful tide of independence in Central America and thereby keep this area as their "tranquil backyard" as in the past and the Caribbean sea as their "lake."

No matter how frenziedly the U.S. imperialists may brandish a "big stick" with bloodshot eyes to stifle the people's cause of chajusong (independence), they cannot break the will of the people to care out their destiny independently, opposing domination and subjugation by imperialism.

NODONG SINMUN HITS U.S. MOVE IN CENTRAL AMERICA

SK011626 Pyongyang KCNA in English 1545 GMT 1 Aug 83

[Text] Pyongyang, 1 Aug (KCNA)--NODONG SINMUN today, analysing the situation becoming acute in Central America, says that the U.S. imperialists' aggression and intervention manoeuvres have created a grave situation in Central America in which the flame of a new total war may flare up.

Noting that the U.S. imperialists plan to stage an unprecedented-in-scope war exercise of aggressive and provocative nature together with the Honduran reactionary army on the coastal waters of Central America, the paper says:

This indicates that their position is getting worse in this area day by day.

The paper further says:

The Central American region is now being swept by a powerful wave of struggle of the people against the domination and intervention of the U.S. imperialists and for national dignity and sovereignty.

The struggle of the people has driven the pro-American reactionary regimes in Central America into a hopeless mire and sent the domination system of the U.S. imperialists in this area downhill to a fast collapse.

Dismayed at the successive outbreak of revolution in the area which they have regarded as their "hereditary estate," the U.S. imperialists are desperately trying to reverse the situation. This is well illustrated by the strengthened military support of the U.S. imperialists to the military fascist dictators in the Central American region.

The U.S. imperialists are inveigling even the Israeli zionists into the military support to the pro-American dictators.

Especially, they are getting overheated in their military support to the Somoza remnants and the Honduran reactionary government in an attempt to nip the Nicaraguan revolution in the bud.

Standing the Somoza remnants as the "shock brigade" of the armed intervention against Nicaragua, the U.S. imperialists set up secret military training

centres in Florida State of the U.S. mainland, Honduras and other areas to give "special training" to thousands of Somoza remnants.

And they have taken the road of direct armed intervention and aggression. It is for this reason that they set up a "military command" for their armed invasion of Central America and are building on a large scale military bases and airfields in the reactionary countries of this area to be used by the "fast deployment forces" in case of contingency.

All these facts indicate that the U.S. imperialists are the very ones aggravating the situation in Central America and the truculent enemy of the people in this region.

GDR'S ERICH HONECKER DENOUNCES 'U.S. IMPERIALISM'

SK301021 Pyongyang KCNA in English 1003 GMT 30 Jul 83

[Text] Pyongyang 30 Jul (KCNA)--Erich Honecker, general secretary of the Central Committee of the Socialist Unity Party of Germany and chairman of the Council of State of the German Democratic Republic, spoke at a meeting held in Leipzig, according to a report from Berlin on 26 July.

Noting that the people express deep apprehension about the aggravation of the international situation, he said: The line of confrontation and arms race pursued by the most aggressive circles of imperialism, notably U.S. imperialism, poses a grave menace to peace.

He further said: Mankind does not want its destruction by the holocaust of a nuclear war nor does it want the deployment of new U.S. missiles in the territories of Western European countries. The honest-minded people hope that East and West will reduce the armaments on the principle of equality and security.

The followers of the imperialist policy consider that they can attain military [word garbled] over the socialist world, but that is a mistake. Our fraternal countries will never allow things to go that way. They will jointly make all efforts to defend peace and frustrate the plan of those who are trying to disturb it.

Erich Honecker stressed that the working people of the German Democratic Republic do all they can to prevent another war in Germany.

KCNA CARRIES TASS REPORT ON U.S. ARMS BUILDUP

SK301049 Pyongyang KCNA in English 1028 GMT 30 Jul 83

[Text] Pyongyang 30 Jul (KCNA)--TASS 28 July published its news analyst's article condemning the continued aggressive acts and arms buildup of the U.S. imperialists on the Korean Peninsula.

It says:

A U.S. spy plane violated the airspace of the Democratic People's Republic of Korea east of the City of Kosong on the night of 26-27 July. Over the past month U.S. planes made some 15 reconnaissance flights over the territory of the Democratic People's Republic of Korea, violating elementary norms of international law.

The mass media of the West have also made note of a dramatically intensified military activity of the U.S.A. in the south of the Korean Peninsula which shows itself in the delivery of new batches of U.S. weapons to the Seoul "regime," the modernisation of U.S. military bases in South Korea, and in preparations for the deployment of new systems of U.S. nuclear missile weapons in South Korea.

Contrary to the decisions of the United Nations which demanded the withdrawal of all foreign troops from South Korea, an end to intervention in the internal affairs of the Korean people and the replacement of the armistice agreement with a peace agreement, the U.S. occupation of the southern part of the Korean Peninsula continues for an indefinite time.

The White House incumbent has relegated to oblivion the promise of his predecessor concerning a partial numerical reduction of U.S. troops in South Korea. On the contrary, a buildup of U.S. military presence there is under way. South Korea is being turned into a launching complex of U.S. nuclear missiles in the Far East. Unwilling to content itself with the presence of U.S. tactical nuclear weapons in the southern part of Korea, the Pentagon is going to deploy cruise missiles and even neutron warheads there. At the same time the rearmament of the South Korean Army is under way--a process into which Washington is striving to draw its ally, Japan.

A heightened U.S. military activity in the south of the Korean Peninsula is a dangerous source of tensions in the region. It demonstrates once again that it is the chief obstacle holding back the realisation of the cherished hope of the Korean people for the reunification of the country on a peaceful and democratic basis and without external interference.

DAILY SCORES SCHEME OF 'NUCLEAR FANATICS'

SK291119 Pyongyang KCNA in English 1106 GMT 29 Jul 83

[Text] Pyongyang, 29 Jul (KCNA)--NODONG SINMUN today brands a decision of the U.S. House of Representatives to produce 100 "MX" inter-continental missiles and deploy them in U.S. mainland with a huge outlay as a wicked scheme of nuclear fanatics hastening preparations for a nuclear war to gratify their wild ambition for world supremacy.

Noting that U.S. Congress approved disbursement for a test flying of the "MX" inter-continental missiles in May and the U.S. House took a step for their mass-production this time, the author of the commentary says:

This bespeaks that Reagan and his administration are a group of most malicious warmaniacs among the successive U.S. administrations and the nuclear frenzy of the present U.S. reactionary ruling quarters has gone to extremes.

Reagan's is a "policy of strength," a "policy of nuclear war." the U.S. imperialists are dreaming of dominating the world by threatening and blackmailing other countries with nuclear weapons.

They try to deploy neutron weapons in South Korea which has turned into their nuclear armory and to deploy medium-range nuclear missiles in Western Europe.

As a matter of fact, the Asian-Pacific region including South Korea is filled with nuclear weapons of U.S. imperialism. Not content with this, the U.S. imperialists are getting frantic with the development, production and deployment of nuclear weapons of new types and trying to produce such mass destruction weapons as "MX" inter-continental missiles.

Their moves are a heinous challenge to the world's peaceloving people who call for nuclear disarmament and peace and an unpardonable criminal act.

Yet, they are chopping logic to make it appear as if their such criminal acts were intended for "peace," in an attempt to mislead world public opinion. With nothing can they cover up their heinous true color as the chieftain of aggression and war and as nuclear fanatics. Nuclear weapons are by no means almighty. The farther they go in stepping up nuclear arms race, the sooner they will meet their destruction.

KCNA CITES DENG XIAOPING ON CHINA-TAIWAN RELATIONS

SK311106 Pyongyang KCNA in English 0921 GMT 31 Jul 83

[Text] Beijing, 30 Jul (KCNA)--Comrade Deng Xiaoping, chairman of the Central Advisory Commission of the Communist Party of China, on 26 June met a U.S. university professor in Beijing and referred to a series of questions arising in realising the peaceful reunification of the mainland of China and Taiwan.

He said:

Peaceful reunification has come to be common language for both the Kuomintang and the Communist Party. It does not mean the conquest of Taiwan by the mainland, nor vice versa.

It is our sincere hope that the Kuomintang and the Communist Party will work together for national reunification and contribute to the Chinese nation.

Referring to "complete autonomy" brought forward by Taiwan, he said:

"Complete autonomy" means "two Chinas," not one China. The social system on Taiwan may be different from that on the mainland, but only the People's Republic of China is entitled to represent China in the international arena.

We recognize the Taiwan local government's right to follow its own internal policy.

Although a local government, the government in Taiwan, which will be a special administrative region will be different from other provincial, municipal and even autonomous regional governments.

It may have some exclusive rights that other provinces, municipalities and autonomous regions do not have, on condition that they do not impair the interests of the unified state.

After the country is reunified the Taiwan special administrative region may retain its independent nature and practise a system different from that of the mainland.

Taiwan may also keep its own armed forces, so long as they do not constitute a threat to the mainland. The mainland will station neither troops nor administrative personnel in Taiwan. The political party, government, and armed forces in Taiwan will all be administered by Taiwan itself.

Comrade Deng Xiaoping further said:

There should be appropriate measures for achieving reunification. This is why we have proposed talks between the two parties on an equal basis to bring about a third round of cooperation, rather than negotiations between the central and local authorities.

But foreign interference absolutely will not be permitted, because it would only mean that China has not won complete independence, and there will be no end of trouble for the future.

DAILY CRITICIZES 'PLOT' OF ISRAELI PULLBACK

SK311046 Pyongyang KCNA in English 0848 GMT 31 Jul 83

[Text] Pyongyang, 31 Jul (KCNA)--Shultz at a recent Washington confab openly supported Israel's plan to redeploy the occupation forces in Lebanon.

NODONG SINMUN today brands this plan as a plot for prolonged occupation of Lebanon.

Noting that a heinous plot was hatched at the Washington confab between the U.S. State Secretary and the Israeli Foreign and Defense Ministers on the Lebanese issue, a signed commentary of NODONG SINMUN says:

Today the Israeli aggressors find themselves in the hell of a fix within and without. Under such situation the Israeli ruling quarters resort to a crafty artifice, feigning willingness to withdraw their occupation forces from Lebanon, to lull public opinion at home and abroad on the one hand and occupy on the other positions more favorable from the military strategic point of view for their prolonged occupation of Lebanon.

A product of this ruse is the plan for the redeployment of the occupation forces worked out under the cloak of "partial pullout."

The U.S. imperialists dared openly support this tricky plan of the Israeli Zionists to strip bare their criminal nature once again as the conspirator and the backstage manipulator of the aggression on Lebanon.

The U.S. imperialists and the Israeli Zionists are employing petty tricks to disguise the redeployment plan as a first-stage step for their total withdrawal. But no one will be hoodwinked by it.

There can be no condition or excuse in the withdrawal of the Israeli occupation forces who have invaded Lebanon in a brigandish manner. The Israeli aggression forces must unconditionally and immediately withdraw from Lebanon on a total scale. This is a unanimous and unbiased voice of the world people who want to see an early normalisation of the Lebanese situation and a solemn demand of the times.

KCNA REPORTS ZIMYANIN SPEECH ON RSDWP ANNIVERSARY

SK311111 Pyongyang KCNA in English 0916 GMT 31 Jul 83

[Text] Moscow, 30 Jul (KCNA)--A celebration meeting devoted to the 80th anniversary of the Second Congress of the Russian Social Democratic Labour Party was held in Moscow on 29 July.

It was attended by leading cadres of party and state of the Soviet Union and representatives of various circles in the capital.

Mikhail Zimyanin, secretary of the Central Committee of the Communist Party of the Soviet Union, made a report there.

The historic feats performed by the Second Congress of the Russian Social Democratic Labour Party are the adoption of the first programme of the Communist Party of the Soviet Union, a thoroughly Marxist one, he said, and continued:

The Bolshevik Party founded by Lenin carried out the victorious October Revolution by leading the Russian working class and working people.

The foreign policy of the Soviet Union from the first days of the October Revolution has been to actively oppose the imperialist policy of coercion and aggression. The Soviet Union has consistently opposed the arms race imposing heavy burdens upon all the peoples including the peoples of the socialist countries and will do so in the future, too.

Exposing the dirty criminal acts perpetrated by imperialism in Central America and the Near East, he said that the anti-communist "crusade" proclaimed by the U.S. president is, in essence, to oppose all the forces of peace and freedom, democracy and progress.

He stressed that the imperialists' barbaric policy of hating humanity assumes particularly dangerous nature because it proceeds from the reckless slogan claiming the validity of a nuclear war.

HU YAOBANG INSPECTS AREAS OF QINGHAI PROVINCE

SK050829 Pyongyang KCNA in English 0816 GMT 5 Aug 83

[Text] Beijing, 4 Aug (KCNA)--Comrade Hu Yaobang, general secretary of the Central Committee of the Communist Party of China, made a ten-day inspection tour of various places of Qinghai Province in northwest China late July and talked with cadres of the province, cadres of some nationalities and people.

Before his departure from Xining on 31 July, he made a speech before party, government and army cadres of Qinghai Province.

Noting that Qinghai is a very promising area of strategic importance in four modernisations of China, he said:

All the economic work of Qinghai Province in five, ten and fifteen years to come should be focused on providing conditions to extensively develop Qinghai Province and shift the major state construction to northwest China at the end of this century or early next century.

Then it would be possible to open a new phase in Qinghai with each passing year.

He continued: Historical experience repeatedly proves that progress of our work needs two main aspects, that is, correct line and policy and ranks of competent cadres.

The existing cadres in Qinghai must strike their roots in Qinghai and bring blowers into bloom, the province must receive and settle middle-aged and young cadres and intellectuals in the areas where science and culture are comparatively developed and especially the youths who are willing to work in Qinghai and strive to have them participate in the great and gigantic work to develop Qinghai.

In conclusion, he called upon the nationalities in Qinghai to more firmly unite around the Central Committee of the Communist Party of China and develop Qinghai into a modern, advanced area.
